**Subject:** RE: Restek GC/MS training

---

Hi all, here is my list for the GC/MS training.

Lisa, Annie, Daniela, Dan, Sonya, Rebecca, Mike, Della, and Betsy. That's nine. Kate and Nicole will be out on leave. Here in Boston, Mai, Tan, and myself probably wont need to do Mass Spec, although I may have to testify for one of the retired chemists. I don't know if Peter or Jim need this. That would give us one open spot. CBS

**Subject:** Restek GC/MS training  
**Importance:** High

The laboratory has contracted with Restek to offer a 1 day GC/MS training onsite (Jamaica Plain) for 10 chemists using Coverdell grant funds. The intent of the training is to provide a strong theoretical background for analysts as we move towards 1 chemist analyzing all items in a case from start to finish. Attached are the bios of the two presenters for this course. The training will be all day on April 27<sup>th</sup> in the SLI Auditorium. I know this will be a challenge with court schedules but chemists who will be attending should block this day off on the calendar as unavailable for courtroom testimony.

Please send me a list of names of who should attend by Wednesday, March 9<sup>th</sup>. I will review and prioritize if necessary.

**Analysts with little/no GC/MS experience should be given priority!**
